## Moving from Sustainability to Regenerative Design

Do we want to sustain what we have, or shift to a new design paradigm that embraces a world where all our actions facilitate the regeneration of ecological systems, human spirit and human evolution? This new approach begins by understanding how systems of life work in each unique place, how our role in those systems can reinforce life sustaining properties and how we can create a 'riot of reciprocity'.

**Date: November 5, 2008**

**Time: NOON - 1:30 pm**

**Place: Carolyn Hoff Lynch Auditorium**

On the Penn campus: Chemistry Building  
34 & Spruce Sts. (enter on 34 St)

**NO REGISTRATION REQUIRED**
