

Join the Philadelphia Global Water Initiative for an interactive conference at the University of Pennsylvania where we will bring together experts working on water & sanitation projects in developing countries.

- Exchange lessons learned
- Hear about the challenges ahead
- Identify opportunities to get involved

**Please join us at this unique, free conference & workshop**

## Lessons Learned: Experiences in Water Supply & Sanitation in Developing Countries

**Saturday, April 5, 8 am - 4:30 pm**

**University of Pennsylvania, Logan Hall**

***Followed by a reception at the Fairmount Water Works Interpretive Center***

- **Keynote address** and presentations from experts at the UN Division of Sustainable Development, US EPA, and Water for People
- **Panel discussions** on the latest developments and challenges in meeting the Millennium Development Goals for water & sanitation, and opportunities for involvement from local individuals and groups
- **Workshops** on recent projects - conducted by local residents - in Africa, Asia, and Latin America with discussions on lessons learned on project planning and implementation

**You will have the opportunity to:**

- **Meet others** working on the global water & sanitation crisis
- **Display your projects** or research in a poster session & display area
- **Contribute to the proceedings** of this conference
