Patrick Center for Environmental Research

Environmental Management &
Interdisciplinary Research Partnerships

Abstract: Dr. David D. Hart's presentation will focus on challenges and opportunities associated with the creation of interdisciplinary research partnerships designed to enhance the effectiveness of environmental management practices. He will illustrate these ideas with examples of ways that researchers can collaborate with a diverse array of stakeholders (e.g., resource managers, policy makers, community groups, and the private sector) to improve watershed protection and restoration practices.

Date: **Thursday, April 4, 2002**

This seminar will begin promptly at

⌘ **Time:** ⌘ **12:00 pm - 1:00 pm**

Place: **Auditorium at Wistar Institute**

On Penn's campus: Spruce Street & Penn's 36th Street Walkway

No Registration Required for the Noon seminar

**This seminar is part of the
IES 10th Anniversary Celebration and will be followed by**

Workshops on Watersheds and Urban Environmental Issues
Houston Hall, 3417 Spruce St.

REGISTRATION REQUIRED

Looking towards the future, the Institute wishes to increase its contribution to urban and watershed issues in the greater Philadelphia region and beyond. Both issues are unusually complex and will require integrated and sophisticated solutions, and we hope the workshops will help sharpen and define future approaches to these issues. We hope you can join us for the afternoon workshop.
