Scholz-Barth Consulting

**The Inevitable City Scape:  
Merging Landscape, Architecture and Engineering**

This presentation introduces green roofs as one alternative to conventional roofs; a challenge to merge landscape design, architecture and engineering with stormwater management and air quality control to create multi-functional and cost-effective urban green spaces that are not only beautiful but also cost effective, maintainable, and ecologically enrich urban areas while simultaneously protecting urban watersheds.

**Date: November 1, 2006**

**Time: NOON - 1:30 pm**

**Place: Carolyn Hoff Lynch Auditorium**

On the Penn campus: Chemistry Building  
34 & Spruce Sts. (enter on 34 St)

**NO REGISTRATION REQUIRED**
