Philosophy of Language

Course Description:
In this course we will ask how language works. How do speakers use sounds and shapes to make claims, promises, and threats? How do words and sentences connect to the world: what makes a word refer to an object or property, and what determines when a sentence is true or false? And how do speakers exploit conventional linguistic meaning for alternative ends, as in metaphor and sarcasm? We will approach these questions by reading classic texts by Frege, Russell, Austin, Grice, Searle, Kripke, Quine, Davidson, and others; but we will also apply these readings to actual, everyday linguistic contexts. Some comfort with basic first-order predicate logic will be required, but no previous experience with formal logic is assumed: I will explain all the relevant symbolism in class.

Course Requirements:
• Two short papers, 4-5 pages (25% each of course grade).
• A final paper, 12-15 pages (35% of course grade).
• Attendance and participation (15% of course grade).
• Daily readings and responses: you must do the assigned reading before class. Always bring the text to class, since we’ll often be going through it in some detail.

As much as possible, this course will be conducted in a discussion format; the more effort you put in to preparing for class, the more useful and more enjoyable the class will be for everyone. I will post study questions for each reading on Blackboard by the end of the prior week; these should help you focus your attention and prompt your own questions about the material. For each class, you should make sure you can answer these questions, and come prepared with at least one question of your own. If you must miss class, you should make up the absence by writing a short response (less than a page) to one of the questions.

Except in extreme conditions, extensions on papers must be granted well before the due date and are granted at my discretion; otherwise, late papers will be downgraded 1/3 letter grade per day.

You are expected to be familiar with and to abide by Penn’s policy on academic and intellectual integrity: http://www.vpul.upenn.edu/osl/acadint.html.
