Math 61
Introduction to Discrete Structures
Fall 2009

Course Information

Schedule: MWF 12:00-12:50
Location: MS 5200
Instructor: Henry Towsner
E-mail: hpt@math.ucla.edu
Office Hours: W 10:30-11:30, R 10:30-11:30, 1:00-2:00
Office: MS 5634
Textbook: R. Johnsonbaugh, Discrete Source (Custom UCLA Edition)
Course Website: http://www.math.ucla.edu/~hpt/61.1.09f/

Grades

Grades will be based on the higher of:

- 20% Homework, 45% Midterms, 35% Final Exam
- 20% Homework, 30% Highest Midterm, 50% Final Exam

Homework: Homework will be assigned each Friday, and will be due by the beginning of class the following Friday. No late homework will be accepted. The lowest two homework grades will be dropped. Homework must be stapled and clearly labelled with your name, ID, and section number.

Exams: There will be two in-class midterms, given on Friday, October 23rd, and Friday, November 20th. There will be no make-up exams. The final exam will be Monday, December 07, 2009 at 11:30 AM. You must take the final in order to pass the class.

Grading complaints: If you believe a problem on a quiz, a homework or an exam has been graded incorrectly, or that your score was not correctly recorded, you must bring this to the attention of the instructor within 14 calendar days of the date the item was returned, and before the final exam. Grading complaints not initiated within this period of time will not be considered. Please verify in a timely manner that your scores are correctly recorded on MyUCLA.

Collaboration

Students are encouraged to collaborate on homework assignments. Collaboration means working together to frame problems, devise approaches, and compare results. The final work, however, must be the work of the individual student, indicating that you alone prepared the work and understand the material.
