

Chapt 6 Quiz

1. Use the periodic table in your textbook to answer the following questions. Most of the elements in groups 6A-8A are classified as _____.
[A] nonmetals [B] alkali metals
[C] alkaline earth metals [D] inner transition metals
2. Group A elements
[A] representative elements [B] halogens
[C] noble gases [D] alkali metals [E] transition elements
3. Group B elements
[A] transition elements [B] alkaline earth metals [C] halogens
[D] representative elements [E] alkali metals
4. Group 1A elements (except for hydrogen)
[A] alkali metals [B] halogens [C] transition elements
[D] representative elements [E] alkaline earth metals
5. Group 2A elements
[A] alkali metals [B] alkaline earth metals [C] halogens
[D] transition elements [E] noble gases
6. A column in the periodic table
[A] period [B] periodic law [C] group [D] transition elements [E] ion
7. Group 7A elements
[A] alkaline earth metals [B] noble gases [C] transition elements
[D] halogens [E] alkali metals
8. Group 8A elements
[A] halogens [B] alkaline earth metals [C] alkali metals
[D] representative elements [E] noble gases
