

Gender and Sexuality in Pre-Modern China: Bibliography of Materials in Western Languages

Paul R. Goldin

May 23, 2018 (ca. 1,350 entries)

For the sake of concision, anthologies of papers by a single author are listed only once, under title of the volume. (The original bibliographical information of any articles revised or reprinted in such anthologies is omitted, as are the original details of articles that were later expanded into or incorporated within a book by the same author.) Book reviews, articles in encyclopedias and newsletters, exhibition catalogues, and unscholarly works for popular audiences are not normally included.

Please do not hesitate to inform the compiler of errors or omissions, which are inevitable in a project of this scope. Many thanks to all the colleagues who have helped over the years.
