This bibliography contains approximately 450 items. Please do not hesitate to inform the compiler of errors or omissions, which are inevitable in a project of this scope. For the sake of concision, anthologies of papers by a single author are listed only once, under title of the volume. (The original bibliographical information of any articles revised or reprinted in such anthologies is omitted, as are the original details of articles that were later expanded into or incorporated within a book by the same author.) Book reviews, articles in encyclopedias and newsletters, exhibition catalogues, and unscholarly works for popular audiences are not normally included.
