Students without a PennKey will be sent a PennKey set-up code via the email they used to apply to Penn 5-7 business days after they accept admission into their program.

If you do not receive a PennKey setup code in one week please select “Contact” on the PennKey Support site.
Penn/SAS Email

All students need to have an e-mail address registered in the Penn Directory and many Penn systems will only use the e-mail address that is listed in the directory to contact you. If you already have an active e-mail address at Penn (anything ending in upenn.edu), then continue to use that; you don’t need to create a new e-mail account.

If you do not already have an active Penn e-mail address, then you must create one. Visit the Penn Computing site to get started. Please note that you need to create your PennKey before you can setup an e-mail address, as your address is based on your PennKey. For example, if your PennKey is "bfranklin," your e-mail address will be bfranklin@sas.upenn.edu.

You should check your entry in the Penn Directory to verify that the information is correctly listed. Please allow two days for a newly created e-mail address to show up in the Penn Directory. Visit the Penn Directory to check your listing. Click the "Login" button in the upper right corner, then click “My Profile” to see your listing. Use the “Help” link to learn how to manage your information in the directory.
